

Krown

Love In Reality

Krown is your fastest way to successful dates. Pre-planned dates, live dating, second chances, events, personal city maps, and more...

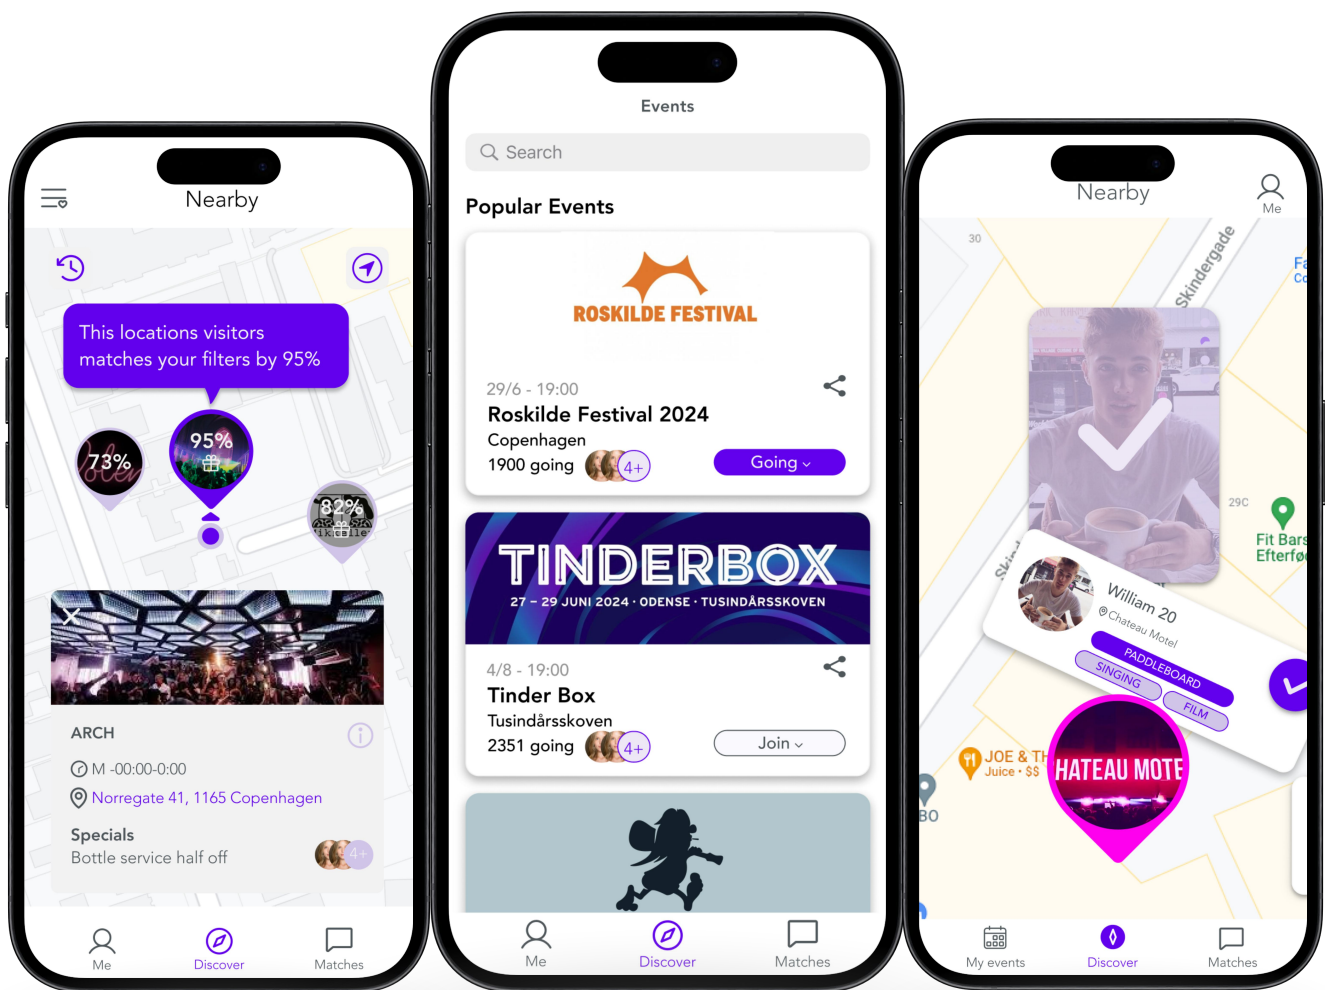

What makes Krown unique?

Pre-plan dates by participating in events and matching with other attendees.

View a personal map of the city and see where guests who match your profile are located.

Automatically see who is single at venues as soon as you arrive.

A radical development within the dating industry

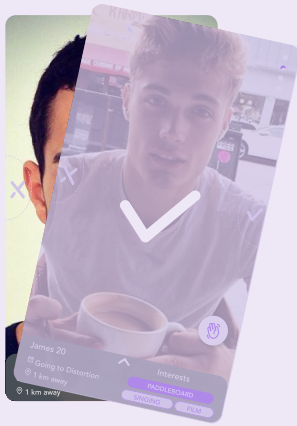

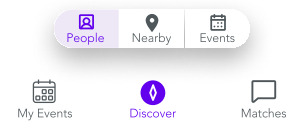

Krown sets itself apart from other dating apps that make money by keeping you single; we have no subscriptions, only a commitment to your success.

How does it work?

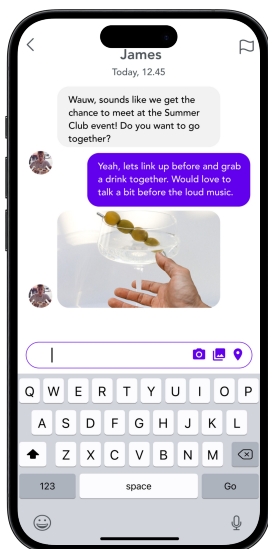

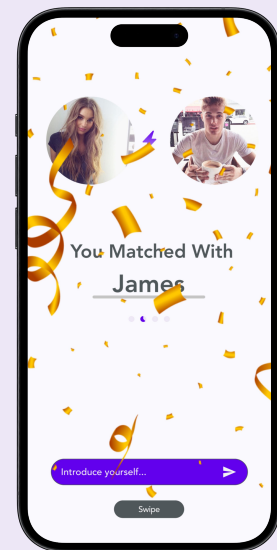

Login

Get started in less than 30 seconds.

Choose a personal map of the city, find events to pre-plan the date, or swipe others nearby.

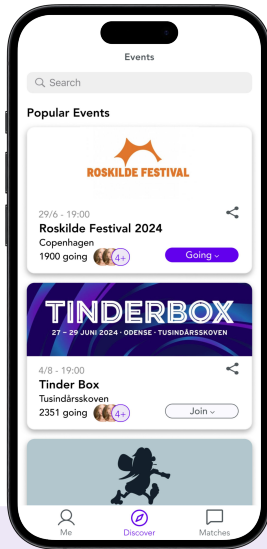

Swipe and match ❤️
Matches occur when
both like each other.

Start chatting, meet each other at the bar, or
look forward to meeting on your pre-planned
date.

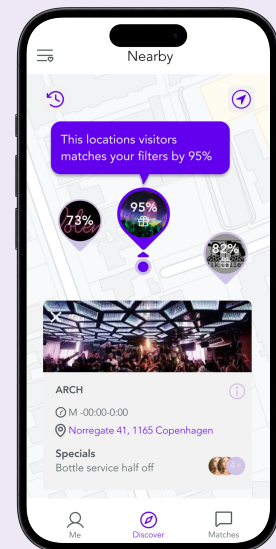

Our vision – We want to ensure that you actually
meet in real life.

Tell me more!

Pre-plan the date by participating in an event.
Then swipe others who will be at the same
place at the same time.

If you just want to meet someone in real life
right away, you can take a look at your personal
map and see where guests who match your
preferences are located.

When you arrive at a bar, restaurant, nightclub,
etc., we make sure you can see other singles at
the place. If you like someone, they
immediately receive a notification.

Someone near you just liked you!
Curious? Swipe and get lucky

Want a second chance?

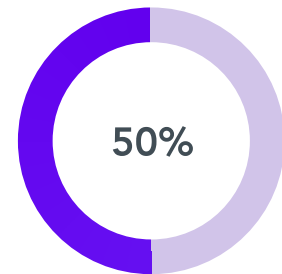

Have you ever regretted not talking to someone at a party? With Krown's second chance, you can just travel back in time to when you were there - and get the chance again. Easy!"

Why is Krown the best?

Krown was created based on research and hundreds of interviews across the USA, Europe, and Asia. This has taught us the following

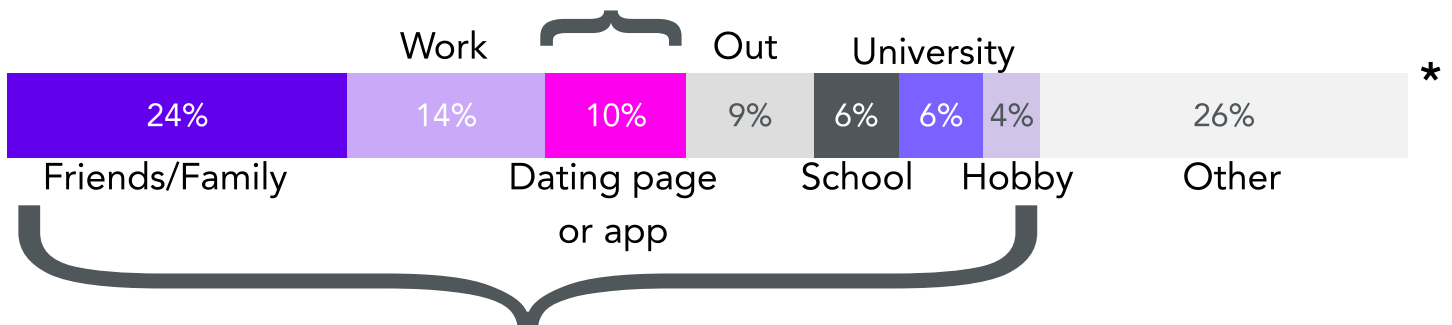

Only half of those who have tried a dating app have been on a date.

We maximize your opportunities to meet easily in safe and exciting settings.

Where have people met their partner

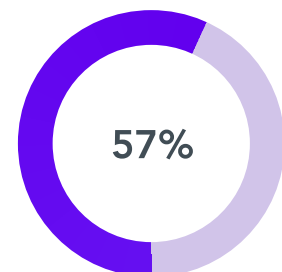

A typical dating app or site only covers

About 10% of the population has found their partner via a dating app or site. Krown digitizes the offline world to give you access to up to **63% more people and thus more chances.***

The majority of women have felt harassed by people they have dated.**

We minimize the risk by letting you control only seeing people with mutual friends.****

Discover and be seen by

Privacy is important.

We therefore let you choose who you want to see and be seen by.

Facts about Krown

- The app is based on research starting back from 2016.
- Research shows that on average, it takes 57 matches to go on a date, about 5.1 dates to form a relationship, and therefore about 290 matches to get into a relationship.*
- We don't keep users single to make money off them. Psst, that's what all the big ones do—just look at how they make their money.
- New Danish dating app with international ambitions.
- Krown has conducted research in the USA, Europe, and Asia to understand the global dating scene.
- We are the world's first app with easy pre-planned dates.
- We base this on real interests by looking at which events you participate in.
- The first dating app that introduces letting you choose who you want to see and be seen by. Both safety and anonymity in the same feature.
- We address ghosting as we help you meet other singles when you are at the same place via Krown Live.
- The first dating app that uses events to be good for both mainstream and niche users at the same time. Participate in an event and see others who share your hobby or lifestyle.
- The first dating app with automatic check-in for live dating at venues.
- Unique that Krown provides opportunities from the past, present, and future with Krown's second chance, live and pre-planned dating features.
- Why the name Krown? - We celebrate romance, so why not crown your prince or princess?
